```
audiolinux: menu — Konsole
File Edit View Bookmarks Settings Help
AUDIOLINUX HEADLESS the realtime audio OS - https://www.audio-linux.com - For support write to audio
AudioLinux profile menu
Your profile is /opt/configuration/custom_profile1.conf

GREEN, ORANGE and RED are pre-configured profiles with increasing CPU load
AUTO is auto-generated by the configuration choices you have made with Audiolinux menus

If you select a profile, previous configurations made with Audiolinux menu options will be
overwritten but you can go back with the AUTO profile
If you set a variable to an empty value the previous configuration will not be changed

Choose one of the following options:

1 Green
2 Orange (default)
3 Red
4 Auto (generated by menus)
5 Copy Auto to Custom
6 Custom1
7 Custom2
8 Custom3

< OK > <Cancel>
```
